

## Capabilities

- Contract manufacturing of short-range guided weapons.
- Design & manufacture of Multi Domain Modular Warheads.
- Manufacture of finished small arms ammunition in all calibres.
- Manufacture of ballistically matched non-standard ammunition natures.
- Ballistic Testing, Research & Development and Product Test & Certification services.
- Custom design & manufacture of all calibre small arms projectiles.
- Design Consulting service for UAS ordnance systems.
- Design and manufacture of bespoke and standard explosive ordnance disruptor cartridges.
- Design & manufacture of Less-Lethal ammunition & munitions.

## Discriminators

- Affordable, overmatched, precision small arms ammunition and explosive ordnance in quantities to match your requirements.
- Fast turnaround and expeditious delivery of customised small arms ammunition natures.
- Sovereign design and manufacturing capability of modular explosive ordnance and non-standard ammunition natures.
- Innovation HUB for UAS/UAV/FPV ordnance and systems design, with agile, small run production line capability aimed at fostering armed UAS innovation in industry.
