

Engineered for the elements

APC Technology, proudly Australian owned and operated, has been at the forefront of ruggedised technology manufacturing for over 40 years. We deliver a comprehensive service, offering end-to-end capabilities from developing solutions based on detailed build specifications to expertly executing build-to-print requirements.

Our expertise extends beyond Defence into commercial industries, such as mining and industrial, providing durable and reliable solutions tailored to withstand the most demanding environments.

Pioneers of Aerospace electronic ruggedisation

- Display & Panel PC's
- HMI consoles
- Keyboards & trackballs
- Critical communications
- Air portable generators
- Environmental testing of aerospace products for design pre-qualification

Capabilities

- Design Engineering
- Product Prototyping
- Ruggedised Electronics
- Contract Manufacturing / Build to print
- Environmental Testing
- Sustainment & Obsolescence Management
- Project Management

Discriminators

- 40 years of proven capability supplying to the aerospace and defence sectors.
- 100% Australian owned & operated; actively sourcing sovereign capability partnerships.
- A state of the art facility of 1650sqm is centrally located
- Extensive in-house environmental test capability
- Rapid adoption of advanced manufacturing techniques and technology.
- Proven design & manufactured solutions to meet MIL-STD and other applicable standards.
- Sustainment and obsolescence management.

Key Customers
